in association with *The Oregonian*, present

An Evening Exploring

# Photoshop CS4

Join us for an evening with *Mark Fitzgerald*, Adobe Certified Photoshop Expert and author of "Photoshop CS4 After the Shoot", as we explore the recently released Photoshop CS4. Our exploration will begin with Photoshop's redesigned user interface.

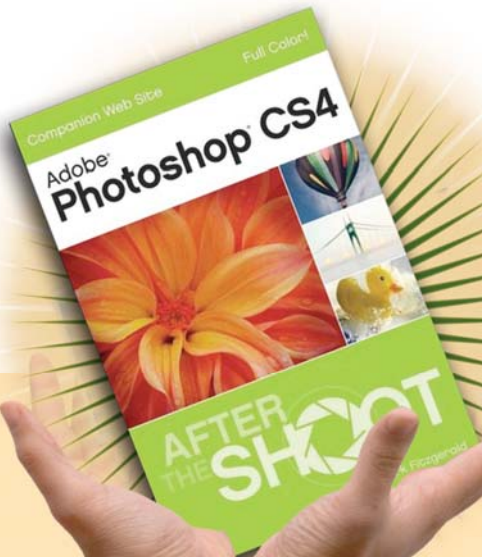

Mark will also demonstrate some of the new and improved features, including:

- The new Adobe Kuler panel that allows you to explore, create, and share color themes with an online community.
- Two new panels - the Adjustments panel for quickly creating adjustment layers, and the new Masks panel that allows you to painlessly create and manage layer masks in ways never possible on previous versions of Photoshop.
- The cool new Content Aware Scaling feature lets you to protect parts of an image as you scale its size.
- The Auto Blending feature that allows you to selectively choose tones, colors,

and focal point from a range of images as they're merged into a single image.

- New soft-proofing feature for the color-blind individuals using Color Universal Design Organization profiles.
- Updated print dialog that provides superior color management and the ability to preview out-of-gamut areas of the image in the print dialog.

Mark will give us a tour of the new and faster Adobe Bridge CS4, and show us a few secrets to speeding up the workflow using some of the nifty tools buried in the menus.

## Join Us Feb. 26

Photographers  
Graphic Designers  
Advertising Agencies  
Print Production Managers  
Color Specialists  
Prepress Personnel  
Printers

We'll also be looking at Adobe Camera Raw 5 and some of its new tools, including the localized corrections and post-crop vignetting.

If you're already using Photoshop CS4, this presentation will point out many of the new features that you may not have seen yet. If you haven't seen CS4, this will be your chance to get a close look at what all of the excitement is about.

*Mark Fitzgerald* is a Photoshop consultant and author living in Portland. He helps professional photographers gain control of their workflows through workshops and private training. Mark is the author of "Photoshop CS3 Restoration and Retouching Bible", "Adobe Photoshop Lightroom and Photoshop Workflow Bible", and "Adobe Photoshop CS4 After the Shoot". To learn more about Mark, visit his website at [www.ddroom.com](http://www.ddroom.com).
